CEMETERY REPORT.

REPORT OF THE WALPOLE VILLAGE CEMETERY COMMITTEE.

During the past year the cemetery has been well cared for. Dangerous trees have been removed, flowers and shrubs have been set out and one of the main avenues has been graveled. The use of gravel having proved satisfactory, the committee recommend continuing its application until the more important driveways have been so treated. By doing a little each year the work can be accomplished without becoming burdensome to the town. An appropriation of \$175 will be necessary for the ensuing year.

The undersigned auditor has examined the accounts of the school board and treasurer and finds them well vouched and correctly cast.

LUCIUS WELLINGTON.

Much credit is due our teachers for the good work which has been accomplished in our schools by their untiring faithfulness and diligence the past year. With the exception of one term at division 10 there has been no break up in any of our schools, and that was in part attributed to the sickness of the teacher who commenced the winter term. There has not been in every case that complete success which the school board, the teachers or their patrons would have liked, but those cases are the exception. We hope parents will visit the schools more, and when their children come to them with complaints of the teacher, they should give a dispassioned investigation of the matter and not take it for granted that their child can do no wrong. Such a course will help the school and your children, the opposite plan will be an injury to both. The fifth school has been established at North Walpole and

more than two hundred scholars have had the benefit of the well taught schools of that village. The old school buildings of Nos. 7 and 13 have been sold by auction and the proceeds given the treasurer. If the fertile lands and pleasant home steads of the southerly part of the town are to be occupied in the future, as in the past, by prolific families, then better school buildings will be required for their use.

DISTRICT NO. I.

Our schools can report gains. We have fallen upon a little closer system—a better gradation. The High School under Mr. L. E. Sherwin has been given resolute, thorough-going intellectual drill and discipline. A course of study has been mapped out which it is intended to pursue, for the most part in line with the systems in schools in the region.

The lawn has this year been graded and put in condition somewhat correspondent to premises in the neighborhood, a very decided improvement. What we need is still a larger school population drawn from districts adjacent, which could be convened in connection with these schools to the advantage of all parties. We are glad to see that several families in the near neighborhood in Vermont and our own town think it best to avail themselves of these advantages. It is the sober purpose of this district to give its scholars an equal chance with favored towns roundabout, though its own abilities without outside aid, are taxed to the utmost to do it; but we still think it would be to the pecuniary interest and to every interest of the town to consolidate several adjacent districts at this center on such terms as the district is willing to grant and it would be to the whole advantage of the town to accept.

Miss Ola A. Hubbard retains the Intermediate school to the great advantage of the school and satisfaction of the district. This department and the primary have been provided with Prince's graded Arithmetics, a few topics only in a single small book; both teachers approve the plan and we look to see it generally adopted.

The Primary under Miss Carrie Wrightman shows plainly the eminent wisdom of continuing an excellent teacher in her place.

Miss Lizzie M. Maynard still holds position as teacher in music and no one saw what was done in her department in the recent exercises in the Town hall but was persuaded, we think, of the great possibilities of the children in singing un-

der such competent and experienced instruction. If citizens will put equal conscience and fidelity into their work that these teachers and scholars do into theirs, the region will be seen to show it.

Walpole Town Library.

REPORT OF THE COMMITTEE FOR THE YEAR ENDING MARCH 1, 1895.

The total number of volumes now on the catalog is 5447, of which 214 have been added during the past year. Of these, 86 have been purchased with the annual appropriation and 128 have been presented by various donors, a list of whom is appended to this report. The thanks of the town are due to the donors for their liberality.

Thirty-seven volumes of new and interesting books have been presented by Mrs. Laurence Hutton of New York. George L. Stearns, esq., of Watertown, a native of this town and the donor of the elegant clock in the Reading Room has made the generous gift of \$56 to be expended in the purchase of the new edition of Johnson's Universal Cyclopaedia in eight volumes. Five volumes have been purchased and placed in the Reading Room for use in the building and the remaining three volumes will be added as fast as published. This is a work which has been much needed as Appleton's American Cyclopædia, which was purchased about 20 years ago, although still of great value, has become out of date. Chandler Robbins, esq., of New York, generously presented the library with \$25 which he desired should be expended for books treating of our life. Fifteen volumes have been purchased and the balance of the fund will be expended during the coming year.

Since the opening of the Reading Room with the increased facilities for the use of books of reference, the need of a good dictionary of the English language has been felt.

This want has been supplied by the purchase of the new Standard Dictionary in two volumes. The work was obtained from Mr. Edwin Guild, the agent of the publishers in this vicinity. He believes it to be a first-class work in every respect and we see no reason to doubt the correctness of his opinion.

The Reading Room has been carried on as usual and we are glad to report an increased interest and attendance. The magazines have been purchased as heretofore with the subscription fund and the Union Magazine club has presented its periodicals after completing the circuit. We have also to thank Copley Amory, esq., for the gift of the Illustrated London News for the last three years, Mrs. Schultz for Harper's Weekly and Judge Howland for Garden and Forest.

The total number of volumes taken out in 1894 is 7579, divided as follows :

Main library,	5944
North Walpole branch,	1265
Drewsville branch,	370

This is the largest circulation in the history of the library being an increase of 1037 over 1893.

The whole number of persons using the Library and Reading Room during the year 1894 is 6821, being an increase of 793 over the previous year.

Work has been continued on the card catalog and there is a prospect that it will be nearly, if not quite, completed during the coming year.

During the past year the books of reference have been moved into the Reading Room where shelves have been placed for their accommodation. In this way they are made more accessible to the public and their usefulness will be increased.

The rather large expenditure for binding is really equivalent to the purchase of a large number of volumes of new books as it was mainly incurred for binding magazines and unbound books that had been presented to the library.

The committee recommend an appropriation of \$360 for the coming year, \$325 for the main library and \$35 for the branch at North Walpole.

Respectfully submitted,

Hudson E. Bridge, chairman,	Mrs. Alfred M. Foster,
Waldo F. Hayward, treas.,	Mrs. Hudson E. Bridge,
Thomas B. Peck, sec.,	Mrs. A. P. Richardson,
